

SELF-PROPELLED SCISSORS | ELECTRIC

MAXIMIZE YOUR **PRODUCTIVITY**

Genie® self-propelled electric scissor lifts are the industry solution for increasing worksite productivity. Ideal for maneuvering in tight spaces, they're excellent for indoor and outdoor construction, maintenance and installation applications with firm, level surfaces. Characterized by low noise levels, these lifts provide excellent capacity and maximum platform workspace.

EASY SERVICE

On-board diagnostics help operators troubleshoot on the fly and make adjustments in the field to maximize uptime. Swing-out battery box and power module trays allow easy access to engine components for convenient service.

SIMPLE ACCESS

These compact units easily pass through standard single or double doors. Solid non-marking tires are standard (except GS-2668 DC and GS-3268 DC models).

The Genie® slab scissors family has been completely updated with features that enhance reliability, serviceability and performance.

CONVENIENT OPERATION

Low-emission electric scissors deliver a quiet, convenient method for operation in sound-sensitive environments like office buildings, shopping malls, hotels, schools and more. Gain access to even loftier jobs with the GS™-3232, which provides working heights up to 38 ft (11.75 m) while fitting into spaces as narrow as 32 in (81 cm) wide.

OUTDOOR FUNCTIONALITY

Electric self-propelled scissors offer outdoor functionality on firm, level surfaces, providing accessibility for a wide variety of applications.

COMPACT MANEUVERABILITY

All models have front-wheel drive and most models feature zero inside turning radius for excellent maneuverability in tight spaces like congested construction sites, elevators and narrow aisles.
